Hi Emmanuelle,

Sounds good. I remember you mentioning something about a third plan and being a bit skeptical. I'll plan on spending most of my time looking over the first two that IHS put together.

Thanks and talk to you on Friday.
Brett

Hi Brett,

Thanks for checking in. That sounds good to me.

The only part I'm hesitant on is the third design that Tim is proposing. I just want to make sure that is something he is vetting with IHS before you spend a lot of time on it.

We can talk more on Friday or feel free to give me a call in the meantime.

Emmanuelle

Subject: HAMP - HUC assistance

Hi Emmanuelle,

I talked with Tim Bodell of the HUC today as he had reached out to me about RCAC doing an external, informal review of the 3 designs for the HAMP from an operational cost & complexity perspective. I think the designs he would like reviewed are the J-hook, the older Y plan and a third plan that he has in mind. I think his main concern is making sure that he has a good handle on the costs and needed personnel/skills for the various designs. It will also be a good chance for Tim and I to talk more about what the villages might need to do in the lead-up to the HAMP and so I would be happy to work with Tim on this. I checked with Angela and Pablo and they think that this would be fine, but we just wanted to make sure that you were on board as well and so thanks for letting me know if you think I should pursue this any further.

Thanks,
Brett
